WANTED – BOARD OF HEALTH MEMBERS

Have you been considering how you might contribute to or give back to your community? Do you have an interest in health and/or environmental issues? Do you have expertise in public health, healthcare, the environment, engineering, planning and development, law, or other expertise valuable to the community's health? If you answered yes to any of these questions then you are wanted by the Board of Health! The Watchung Board of Health currently has two vacancies for alternate members of the Board.

If you, like most, do not know what the Board of Health does consider the following: food safety, tobacco control, safe drinking water and sewage disposal, pool safety, communicable disease control, healthy living, emergency preparedness and response, environmental contamination, education and enforcement. The Board of Health considers all of these issues and more and sets policy to address the health concerns of the community. If any of this sounds interesting to you please submit your application to be a Board member to MaryAnn Hance, (mhance@watchungnj.gov) Board Secretary. The application can be found at http://watchungnj.gov/forms/Volunteer_form.pdf.

If you would like more information about the Board or the Health Commission (who works hand in hand with the Board) and their roles and responsibilities, please contact Kevin Sumner, Health Officer at 732-968-5151 or ksumner@middlebrookhealth.org. We look forward to meeting and working with you!

Public Health
Prevent. Promote. Protect.
