Goals and Objectives – 2015

HIGH PRIORITY

Maintain the Texier House as a local museum containing all artifacts and material pertaining to the history of the Borough of Watchung displayed for the community to enjoy, including the following new initiatives:

1. The exterior of the Texier House needs to be painted. The current paint is peeling and is starting to look unsightly. It is also important that the roof gutters are cleaned and working properly.
2. The Committee is working on a design proposal for an Ice Harvesting Sculpture to be placed at Watchung or Best Lake to commemorate historical commerce.
3. An exhibition about Watchung Schools is desired. Evaluate existing exhibitions for enhancement, improvement, replacement and rotation.
4. Research recent Civil War acquisitions for overall historical significance and appropriate display.
5. Determine appropriate display for empty Eaton Room Case.
6. Develop guidelines for the tours of the Museum and train volunteer docents to assist the Committee.

7. Continue to sort and organize historical materials that have not been yet been inventoried or stored properly.

8. Establish relationships with local school and youth groups for tours and visits.

9. Conduct small scale public events such as teas, special tours, holiday themed events, etc. and invite targeted groups. Invite other local historical groups for tours and special events.

10. Implement the recommendations made by the CAPES evaluation within our budget:
(This goal will take several years to complete.)
 - Create and implement key administrative policies to include a Collection Policy, Deed of Gift Form, and Appraisal Guidelines.

 - Create and maintain accession records for donations.

 - Develop a disaster plan in cooperation with OEM.

 - Continue the process of inventories/descriptions of all holdings.

 - Continue with the Excel spreadsheets already developed and decide format to list, organize, and track all items in the collections.

 - Begin the process of digitizing all holdings. Where possible, utilize copies for display while preserving the originals.

11. Complete second phase of the video recording information gathered from long-time resident and officials of the Borough.

12. Contact colleges to determine if there are students in library science or other majors that could assist us in setting up more displays in the museum and organizing the material.

ON-GOING
