

With so much conflicting information out there, how do you know what healthy eating really looks like? Let's clear up some of the myths about eating clean.

What does healthy eating look like?

Myth

Fact

Only fresh fruits and vegetables are healthy.

A healthy diet can include fresh, frozen, canned and dried produce.

All processed foods are bad and full of chemicals.

Most foods you see at the grocery store have been processed in some way. Processed foods that don't have a lot of added sugar or sodium can be a part of a healthy diet. Think: baby carrots, whole grain bread, plain yogurt, or chopped nuts! Select canned and frozen fruit and vegetables without salty sauces or sugary syrups. Drain and rinse canned products to get rid of some of the additives like salt and sugar.

- herbs, spices, black pepper and citrus juices instead of sugar, salt and unhealthy fats.

the food may still have too much sodium, added sugars, and unhealthy fats.

Watch for and limit':

Salt/Sodium

Sugary Drinks

Sweets

Myth

Fact

Fatty or Processed Meats -

choose lean or extra-lean meats instead

I should avoid the middle aisles of the grocery store.

There are many foods throughout the grocery store that can be part of a healthy eating pattern.
